

MY Poetry

[caption id="attachment_1616" align="aligncenter" width="288" caption="One of my first Photoshop Projects. From around 1996. I love Thoreau. All the "people" are me:

baby, high school grad. pic. , & in my 30's."]

[/caption] Amongst my other projects I am also a published writer. Poems have gone into books and magazines. One has been made into a song. Another was supposed to be made into a song, I never heard if it did or not. I have always loved to write. The truth is I have binders and binders full of writings and these are from before the computer age (as I know it). I also have disks and disks of writings. Here I will only bore you with my favorite and best poetry. :) Have a great day! Peg
