

Our New (OLD) House

Hi there, Don't know if anyone is interested, but I have a place over at "my space" too. this is free space from Microsoft. Something like this one. I like this one better though. Over there I have my wedding picture, pictures of our land outside of Klamath Falls, and last night I put of the "before" pictures of the outside of our house. I have not taken pictures of the inside at all yet. Clyde went to Chicago today. Boooo Hooooo... :0) Hugs, Peg
